

The Reviews

From justracing.com.au

There has also been a wonderful book about Bernborough written by well-known journalist Duncan Stearn, which he has put out to "clear up at least some of the myths" about the champion galloper. This is the seventh book that Duncan had produced. He is a former editor of the Australian Greyhound Review and NSW Greyhound Weekly and has been a freelance journalist for more than 20 years and has written for the (Sydney) Daily Telegraph, Australian Magazine, Adelaide Review, Turf Monthly and other publications. The book is very reasonably priced and can be landed to your door in either Australia or New Zealand for the monetary equivalent of A\$29.95. Duncan has set up a professional website and all the information is available on www.bernborough.net
