

Bernborough - The Jockey

Until his dying day, Athol 'call me George' Mulley was always associated with the Bernborough phenomenon. Countless stories were written about a man regarded by many as one of the most natural of horsemen and brilliant race-reading riders of all time. Yet he was constantly dogged by controversy, both before, during and after his partnership with the big bay horse from Queensland. His Caulfield Cup ride on the horse remains the most infamous and controversial.
